

OPPOSED TO H.B. 6816 AN ACT CONCERNING MICROSTAMPING-  
ENABLED PISTOLS, RAISING THE AGE TO PURCHASE AMMUNITION  
AND RESTRICTING THE SALE AND POSSESSION OF BODY ARMOR.

I am opposed to H.B. 6816. This bill does nothing to stop criminal violence and is nothing more than an attack on the citizens of Connecticut who are lawful firearm owners.

We should instead focus on enforcing existing laws and addressing the root causes of violence in our communities.

Microstamping pistols is a failed technology and does nothing but increase a level of government bureaucracy and increase the cost of the firearm.

Raising the age for ammunition purchase is nothing more than unreasonable. If an 18 year old can vote, enter military service, and is considered an adult they should certainly be able to freely purchase ammunition. Young hunters and target shooters like myself would be severely impacted by this illogical proposal.

Again this proposed bill does nothing for reducing crime and is simply an attack on gun owners. Bill H.B. 6816 must be rejected in its entirety.
